

ISHWARYA MEENAKSHI CHELLAPPAN

SAP ABAP Full Stack Developer | SAPUI5 & Fiori Elements | RAP | CAP | OData | SAP BTP

Bengaluru, India (Open to Relocation) | +91 98424 37275 | ishwaryathendral@gmail.com | [linkedin.com/in/ishwarya-chellappan-226461193](https://www.linkedin.com/in/ishwarya-chellappan-226461193)

PROFESSIONAL SUMMARY

Full Stack SAP Developer with 4+ years of experience designing and delivering end-to-end SAP solutions across SAPUI5/Fiori Elements front ends and ABAP, RAP, CAP (SAP Cloud Application Programming Model), and OData back ends. Proven track record of building and presenting multiple complex, data-driven dashboards for enterprise clients and stakeholder demos, translating business KPIs into interactive Fiori visualizations. Skilled in SAP BTP application development and administration, including CAP-based service development with CDS modelling and SQLite/HANA persistence, Fiori Launchpad tile creation, and role-based access provisioning, alongside RAP-based clean-core application development and performance-optimized HANA solutions. Adept at working across the full stack, from OData service design in BAS to pixel-level UI5 front-end delivery, with strong client-facing communication and demo presentation experience.

CORE TECHNICAL SKILLS

Frontend / UI: SAPUI5, Fiori Elements, Fiori Launchpad, HTML, CSS, JavaScript

Backend / ABAP: ABAP on HANA, RAP (RESTful ABAP Programming Model), CDS Views, AMDP, Badi, User Exits, BAPI

SAP CAP / Cloud Dev: SAP Cloud Application Programming Model (CAP), CDS Data Models & Service Definitions, Node.js Runtime, @cap-js/sqlite, Role-Based Backend Authorization

Integration: OData V2/V4 Service Design & Configuration (BAS), REST APIs, Named Model Binding, Metadata & Entity Set Design

SAP BTP: CAP Application Development & Deployment, Fiori Launchpad Tile Creation & Configuration, Role-Based Access Provisioning, Space/Subaccount Awareness, BTP Solution Architecture

Tools & Platforms: SAP Business Application Studio (BAS), ADT (Eclipse), SAP GUI, Git, Postman, Figma (UI reference)

Methods: Agile, Scrum, Jira, Client Demos & Stakeholder Presentations, Technical Design Documentation (TDS)

PROFESSIONAL EXPERIENCE

SAP Pioneer — Business Process Associate Consultant

Mar 2026 – Present

- Contribute to S/4HANA transformation initiatives, supporting design and development of scalable, full stack SAP solutions across UI5/Fiori and ABAP/RAP layers.
- Collaborate with functional stakeholders to translate business requirements into technical design artifacts and RAP-based architectures.
- Build RAP-based applications and CDS models aligned with clean-core principles, paired with Fiori Elements front ends.
- Deliver performance-optimized HANA solutions using code pushdown techniques.
- Gave Various presentation on AI in consulting
- Build enterprise-grade SAP Fiori UI5 applications from scratch using modern SAP standards.
- Integrate SAPUI5 applications with OData V4 services and implement full CRUD operations.

Accenture — Packaged App Development Senior Analyst

Dec 2025 – Mar 2026

- Led end-to-end design and delivery of full stack SAP ABAP and S/4HANA solutions, spanning OData service configuration, RAP back ends, and SAPUI5 front ends.
- Collaborated with cross-functional teams to ensure integrated system behaviour.
- Conducted technical design reviews, solution validation, and performance optimization.
- Mentored junior developers and enforced best practices for scalable, clean-core design.

Accenture — Packaged App Development Analyst

Mar 2024 – Nov 2025

- Developed enterprise-grade full stack applications using RAP and OData V2/V4, paired with SAPUI5 and Fiori Elements front ends for client-facing dashboards.
- Enhanced MIGO and MM transactions using Exits, BAdIs, and custom ABAP logic.
- Delivered 30+ RICEFW objects (Reports, Enhancements, Workflows, Adobe Forms).
- Improved PR/PO report performance by ~40% using HANA SQL and AMDP.
- Reduced approval cycle time by 20% via workflow enhancements.
- Authored Technical Design Specifications (TDS) covering data models, integration, and error handling.
- Mentored interns on RAP and ABAP full stack development.
- Represented the team in client demo sessions, presenting dashboard functionality and gathering feedback for iteration.

Accenture — Packaged App Development Associate

Dec 2022 – Feb 2024

- Completed comprehensive training in SAP ABAP development, building a strong foundation in core concepts and best practices.
- Developed custom reports, enhancements, and forms supporting business process requirements.
- Collaborated with functional teams to gather requirements, test deliverables, and provide technical support during implementation.
- Delivered 15+ ABAP developments including reports, enhancements, forms, and OData APIs.

KEY PROJECT HIGHLIGHTS

- **Payment Operations Dashboard (SAPUI5 + OData V4):** Built a full stack Fiori dashboard wiring KPI tiles, Viz Frame bar/donut charts, and a filterable sap.ui.mdc.Table to two live OData V4 services; resolved date-filter serialization, model-binding, and metadata race-condition issues to deliver a stable, demo-ready client tool.
- **CMO Dashboard (OData + Fiori):** Developed a full OData service with CRUD, file upload, and approval logic, reducing manual tracking effort by 50%.
- **Milestone Management (RAP App):** Built a RAP Business Object with CDS, behaviour definitions, validations, and SLA automation with 10-day notification triggers.
- **IDAC MIGO Automation (SAP GUI → Fiori):** Automated MIGO logic via ABAP enhancements and migrated a legacy SAP GUI transaction to a modern Fiori tile on BTP.
- **Payment Operations Application (SAP CAP + SQLite):** Built a role-based Payment Operations app on SAP CAP with CDS data models and @cap-js/sqlite persistence, covering an Admin KPI dashboard, payments approval/rejection workflow, and backend-enforced authorization for Admin and Payment User roles.

CERTIFICATIONS

- SAP Certified ABAP Cloud Developer (C_ABAPD_2309)
- SAP Certified — BTP Solution Architect
- Microsoft Azure Fundamentals (AZ-900)

EDUCATION

PSNA College of Engineering and Technology — B.Tech, Information Technology Jul 2018 – Apr 2022
